

AP United States history Summer Assignment

Mrs. DeMennato

The John Carroll School

Welcome to APUSH friends!

This is a college-level course and there is a sizable commitment for this course. We will take the APUSH exam in May as will students from around the world. We do not start classes until September; while in other parts of the country, the course can begin as early as the first week of August. It is for this reason that it is imperative that you complete the summer assignments detailed below.

Everyone enrolled in the class has a different schedule for the summer. If your schedule requires you to complete these tasks earlier in the summer, I would urge you to take the time before entering JC for the 2023-2024 school year to review what you completed earlier in the summer. If your schedule requires you to complete these tasks later in the summer, make sure you allot yourself enough time to process and complete the tasks and course introductory concepts.

We will hit the ground running once the school year begins. There will be an assessment in the first week of school related to this material. We will BRIEFLY review and then move onto the heart of our curriculum.

Although using the summer to prepare for our course and place us in a good calendar pace to complete the curriculum with adequate review time, you should still rest and destress.

If you have any questions, I will periodically check my work email. In all likelihood, I will be checking in the neighborhood of twice per week. We have several vacations planned, so I request patience in my reply. I will not be traveling in the month of August.

Have a blessed summer and I look forward to getting to know each of you in the upcoming school year!
