

College Fairs

John Carroll has a college fair in the spring semester for sophomores and juniors. We bring in schools from all over the nation to meet with and inform our students about colleges and universities. Information regarding fairs will be provided to students via all communication methods and more information can also be found in the College Counseling offices and College Center.

College Rep Visits

Each fall representatives from different colleges and universities visit John Carroll to present information about their school and meet with our students. The reps are often the admissions counselor that will be reviewing your application to their institution. These visits are open to both juniors and seniors and you can attend up to 6 visits each year. Visit dates and times are located on SCOIR and students must register via SCOIR (www.SCOIR.com) to attend the meetings.

THE JOHN CARROLL SCHOOL

The College Counseling program at The John Carroll School is designed to assist students through the college search and application process. Although the college admission process is often perceived to be highly stressful and daunting, our belief is that through proper education, self-knowledge, and access to our professional resources, the stress will be alleviated, and our students can take ownership of the process.

While each student will have a personal counselor to help them with academic and personal issues, they will also be working with the College Counselor whose sole objective is to work with the students during their college search and application process.

Through individual conferences, classes in both junior and senior year, and a variety of special events, the college counselor teaches research and decision-making skills while helping students better understand themselves and their options. The goal of the program is to support each student in identifying colleges and universities which are a good match for his or her interests, needs, and aspirations, while also supporting the student and family throughout the application process.

While well-supported every step of the way, students are given increasing responsibility for this process over the course of their junior and senior years. It is our objective that the students have complete ownership of the process in the end, and that they are on their way to a college that is right for them when they graduate.

College Center

The College Center at John Carroll School is a resource room for students in all grade levels to complete college research. With bookshelves full of college related books and SAT/ACT study guides, a wall shelf displaying hundreds of college brochures, a large meeting table lined with several office style chairs, an additional work table, and a bureau with several college/testing/financial aid related magazines and brochures for the taking, John Carroll students have every college-search related item they need at their fingertips! Students are free to use the College Center on their free mods, before school and after school. College repetitive meetings with students are also held in the College Center, as well as family meetings with the College Counselor.
