3. Turn on Push, Text and/or Email notifications (you can also set desktop notifications and whether Remind is authorized to call you)

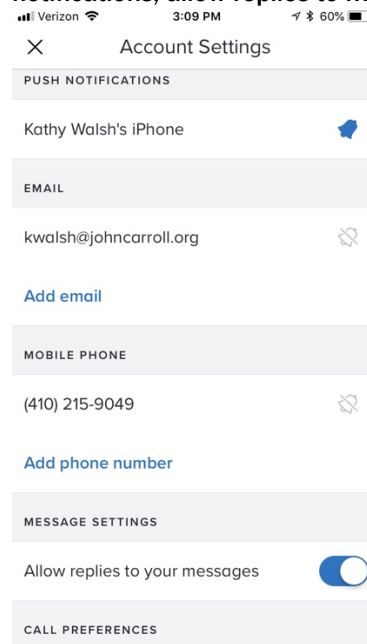

4. Please note you may need to “Add a mobile device” under Text notifications to turn on.

From Remind app on your phone

1. Click on the little gear icon in the very top left, above your name (if that is not showing up, first click the 3 lines at the top left first)

2. This should pull up Account Settings where you can add emails, mobile phone, turn on push notifications, allow replies to messages etc.

Above, email and mobile phone notifications are turned OFF (grayed out with a line through them) but push notifications are on (the blue bell). Remember, you can choose the settings that work for you!
