# The John Carroll School Dress Code

The purpose of the dress code at The John Carroll School is to provide an atmosphere conducive to learning and to assist in the maintenance of discipline. The dress code reflects the school's mission to support and develop in students a sense of self-respect and integrity while also preparing them for the wider world of work and service. John Carroll students, through their appearance, represent the school and the moral religious principles on which the school stands.

The complete dress code can be found at [www.johncarroll.org/students/john-carroll-student-handbook](http://www.johncarroll.org/students/john-carroll-student-handbook).
